

SKETCH
OF
EDUCATION
IN
UPPER AND LOWER CANADA.
1864.

BRIEF SKETCH

The present system has been of very great value in an unsuccessful attempt to improve the grammar schools and the Legislative Council and the Mathematical and the Upper Grammar schools which Upper Grammar schools were given them with \$400,000. Cornwall, under the hon. the member, was most efficient.

In 1816, nine Grammar schools were passed the first and appropriated a sum of £10,000 of Commutation of £10,000.

In 1822, a Bill was established for the schools, and the School lands, and the proposals by his Majesty's Commission were adopted to introduce the system. Nevertheless, the system gradually came into an effort was made to promote it was not successful to pass in the elaborate report of the Committee of the House of Commons in the year 1837, which was printed in the crisis of 1837, and the fusion all our schools attention being

I.—

(1.) *The Commission* passed restoring the establishment of the system of a system of Ryerson, the principal. He proposed a broader and more comprehensive system of public instruction, a year to the extent of the system of education, which embodied the results of the Elementary Instruction Commission. A valuable report of the system of public instruction, successful operation.

The chief object of the system in other countries, New York for the State of Massachusetts for the purpose of the report, to Ireland, school books, Normal schools, and blended to that they are not. In several important points the system differs from the chief points of the system.

1. It provides for the co-operation of the various religious bodies.

2. The chief object of the system.

3. Taxation of the various branches of industry.

4. It prohibits the sale of new text-books.

5. It provides for the award of prizes, and

EDUCATION.

BRIEF SKETCH OF THE STATE AND PROGRESS OF PUBLIC INSTRUCTION IN UPPER CANADA.

BY J. GEORGE HODGINS, LL.B., F.R.G.S.

The present educational prosperity of Upper Canada has been of very slow growth. Nearly sixty years ago an unsuccessful effort was made to endow four Grammar schools and a University; and in 1807 the first Legislative enactment was passed establishing Classical and Mathematical schools in the eight districts into which Upper Canada was then divided, and endowing them with \$400 per annum each. That established at Cornwall, under the mastership of Mr. Strachan (now the hon. the right rev. the Lord Bishop of Toronto), was most efficient.

In 1816, nine years after the establishment of the Grammar schools, the Legislature of Upper Canada passed the first Common school law for that province, and appropriated \$24,000 per annum for the maintenance of Common schools. In 1820 this sum was reduced to \$10,000.

In 1822, a Board of Education for Upper Canada was established for the supervision of the Grammar schools, and the management of the University and School lands, which had been granted for those purposes by his Majesty George III. in 1798. Some regulations were adopted; and in 1824, an attempt was made to introduce Common and Sunday school libraries. Nevertheless, the zeal of the public in behalf of education gradually languished; and it was not until 1835 that an effort was made to revive it. In that year a bill to promote it was passed in the House of Assembly, but failed to pass in the Legislative Council. In 1836, an elaborate report was prepared by Dr. Thomas Dunscombe, M.P.P., chairman of the Educational committee of the House of Assembly, on the state of education in the various parts of the adjoining Union which he visited. He also prepared a draft of a Bill, which was prior to, but never passed. The political crisis of 1837 soon followed, overwhelming in confusion all our school legislation and preventing further attention being given to the subject at that time.

I.—PUBLIC COMMON SCHOOLS.

(1.) *The Common School System.*—In 1841, a bill was passed restoring our Common schools, authorizing the establishment of Separate schools, and tracing the outlines of a system of education. In 1844, the rev. Dr. Ryerson, the present head of the Department, was appointed. He speedily set himself to reconstruct, upon a broader and more lasting foundation, our entire system of public instruction. As a preliminary step, he devoted a year to the examination and comparison of the systems of education in Europe and America, and embodied the results in a "Report on a System of Public Elementary Instruction in Upper Canada." This valuable report sketches, in a comprehensive manner, the system of public instruction which is now in successful operation among us.

The chief outlines of the system are similar to those in other countries. We are indebted in a great degree to New York for the machinery of our schools, to Massachusetts for the principle upon which they are supported, to Ireland for an admirable series of Common school books, and to Germany for our system of Normal school training. All, however, are so modified and blended to suit the circumstances of the country, that they are no longer exotic, but "racy of the soil." In several important particulars, our Public School system differs from any other on this continent. The chief points of difference are as follows:

1. It provides for specific religious instruction, and the co-operation and visitation of the local clergy of the various religious persuasions.
2. The chief executive is a non-political and permanent officer.
3. Taxation for its support is voluntary on the part of the various municipalities.
4. It prohibits the use of foreign books in the English branches of instruction, except by special permission,—thus preventing the introduction of heterogeneous text-books, and those inimical to our institutions.
5. It provides for the supply of maps, school apparatus, prize, and library books to all the schools, direct

from the Department, and grants 100 per cent. on local appropriations for this purpose.

6. It provides for the pensioning of superannuated or worn-out teachers.

7. It provides for taking and recording meteorological observations at the senior County Grammar schools.

(2.) *Common School Statistics.*—Each township is divided into school sections of a suitable extent for one school, and in each of these sections three trustees are elected to manage its school affairs. In cities, towns, and villages, the schools are managed by a Board of School trustees, elected for the municipality. There were 4,104 Common schools in Upper Canada in 1862, including 109 Roman Catholic Separate schools, attended by 343,733 pupils, of which 14,700 attended the Roman Catholic Separate schools.

(3.) *Expenditures on behalf of Common and Separate Schools in 1862.*—1. For the salaries of teachers, \$959,776; increase over 1861, \$41,663.

2. For maps, apparatus, prizes, and libraries, \$22,316; increase, \$1,511.

3. For school sites, and building of school houses, \$114,719; increase, \$1,354.

4. For rents and repairs of school houses, \$37,960; increase, \$1,498.

5. For school books, stationery, fuel, and other expenses, \$97,219; decrease, \$5,452.

6. Total expenditure for all Common school purposes, \$1,231,993; increase, \$40,575.

7. Balances unexpended at the end of the year, \$164,130; decrease, \$25,731.

(4.) *Free Public Libraries, Maps, and Apparatus.*—The Chief Superintendent in his report for 1862 states that "The system of free public libraries is as follows: A carefully classified catalogue of about four thousand works (which, after examination, have been approved by the Council of Public Instruction), is sent to the trustees of each school section and the council of each municipality. From this catalogue the municipal or school authorities desirous of establishing or improving a library, select such books as they think proper, and receive from the Department the books desired (as far as they are in print or stock) at cost prices, with an apportionment of one hundred per cent. upon whatever sum or sums they transfer towards the purchase of books. The libraries are managed by the local councils and trustees according to general regulations, as provided by law, by the Council of Public Instruction." Up to the end of Dec. 1862, about 518 libraries had been established, containing more than 1200 sub-divisions, and 198,848 vols.

"The maps, globes, and various articles of school apparatus sent out by the Department, apportioning one hundred per cent. upon whatever sum or sums are provided from local sources, are nearly all manufactured in Canada, and are better executed at lower prices than imported articles of the same kind. The globes and maps manufactured (even to the material) in Canada, contain the latest discoveries of voyagers and travellers, and are executed in the best manner, as are tellurians, mechanical powers, numeral frames, geometrical forms, &c. All this has been done by employing competitive private skill and enterprise. The Department has furnished the manufacturers with the copies and models, purchasing certain quantities of the articles when manufactured at stipulated prices, then permitting and encouraging them to manufacture and dispose of these articles themselves to any private parties desiring them, as the Department supplies them only to municipal and school authorities. In this way new domestic manufactures are introduced, and mechanical and artistic skill and enterprise are encouraged, and many aids to school and domestic instruction, heretofore unknown among us, or only attainable in particular cases with difficulty and at great expense, are now easily and cheaply accessible to private families, as well as to public municipal and school authorities all over the country. It is also worthy of remark, that this important branch of the Educational Department is self-supporting. All the expenses of it

are reckoned in the cost of the articles and books procured; so that it does not cost either the public revenue or school fund a penny beyond what is apportioned to the municipalities and school sections providing a like sum or sums for the purchase of books, maps, globes, and various articles of school apparatus. I know of no other instance in either the United States or in Europe, of a branch of a public department of this kind, conferring so great a benefit upon the public, and without adding to public expenses."

In connection with the foregoing, it may be interesting to show what has been the extent of the demand for books in Canada during the last twelve years. The facts are highly encouraging, and speak well for the prevalence of an enlightened literary taste and growing intelligence among the various classes of the people.

The following statistical table, which has been compiled from the trade and navigation returns for the province, shows the gross value of printed books (not maps or school apparatus) imported into Canada during the thirteen years specified below:

Year.	Value of Books entered at ports in L. Canada.	Value of Books entered at ports in U. Canada.	Total value of Books imported into Canada.
1850..	\$101,880	\$141,700	\$243,580
1851..	120,700	171,732	292,432
1852..	141,176	159,268	300,444
1853..	158,700	254,280	412,980
1854..	171,452	307,808	479,260
1855..	194,356	338,792	533,148
1856..	208,636	427,992	636,628
1857..	224,400	309,172	533,572
1858..	171,255	191,942	363,197
1859..	139,057	184,304	323,361
1860..	155,604	252,504	408,108
1861..	185,612	344,621	530,233
1862..	183,987	249,234	433,221
	\$2,156,815	\$3,333,349	\$5,490,164

(5.) *Text Books, Maps, and Apparatus used in the Schools—The Bible and Prayers.*—In regard to the text-books, &c., the Chief Superintendent also remarks as follows:—"1. The series of National Canadian Text-books (adopted and adapted from those of the Irish National Board) are now so universally used in our schools, that the detailed table on this subject is not repeated. It is worthy of remark that the text-books specially prepared and adapted for the Canadian schools are rapidly superseding those for which they were intended as substitutes.

"On the adoption of the decimal system of currency in Canada it was felt that the National arithmetics should be adapted to it. This task was undertaken by Mr. Sangster, the mathematical master of the Normal school, who has compiled both a large and a small arithmetic, upon the plan of the National Arithmetic, greatly improved and illustrated by examples taken from Canadian statistics. These arithmetics, published by the enterprise of Mr. Lovell, are already used in 1,906 schools—being an increase of 782 schools during the year: while the use of the old National Arithmetic has decreased during the year to the extent of 734 schools.

"2. The same remark applies to Mr. Lovell's Canadian Geography, compiled by Mr. Hodgins, and intended to supersede Morse's Geography, which had heretofore been permitted in the schools in the absence of one better adapted for their use. The use of Morse's Geography has been discontinued in 703 schools during the year, while Lovell's General Geography has been introduced into 818 schools—being now used in 1,864 schools.

"3. The whole number of schools using maps is 2,965—increase, 145; the number of schools using globes is 1,017—increase, 91; the number of schools using black-boards is 3,526—increase, 184. The whole number of maps used in the schools is 21,976—increase, 1,300.

"4. The number of schools opened and closed with prayer was 2,576—increase, 195. The number of schools in which the Bible or Testament is used was 2,322—increase, 43; being nearly three-fourths of all the Common schools in Upper Canada."

(6.) *The Superannuated or Worn-out Teachers.*—The Legislature has apportioned \$4,000 per annum

in aid of superannuated or worn-out Common School teachers. The allowance cannot exceed \$6 per annum for each year that the recipient has taught a Common school in Upper Canada. Each recipient must pay \$4 for the current year, or \$5 for each past year, since 1854, into the fund; nor can any teacher share in the fund unless he pays annually at that rate to the fund, commencing with the time of his beginning to teach, or with 1854 (when the system was established), if he began to teach before that time. If a teacher has not paid his subscription annually, he must pay at the rate of \$5 per annum for past time, in order to be entitled to share in the fund when worn out. 209 teachers have been admitted to receive aid from this fund; of whom 38 have died before or during the year 1862. The average age of each pensioner was 63½ years.

II.—NORMAL AND MODEL SCHOOLS.

The establishment of a Normal school as necessary to the completion of a national system of education, engaged public attention in 1836; but nothing was accomplished until after the appointment, in 1844, of the rev. Dr. Ryerson, as Superintendent of Education. In February 1849, Dr. Ryerson, after investigating the systems of education in Europe and the United States, submitted to Government his report on a System of Elementary education for Upper Canada, and a draft of a School bill, which obtained the assent of Parliament, 23rd May 1849. On the 1st July following, the Board of Education (now Council of Public Instruction) was appointed, for the purpose of establishing the Normal and Model schools, and selecting text-books for the Common schools of the Province. By agreement with the Government, the old Government house of Upper Canada, at Toronto, was granted for the use of the Normal school, until the erection of proper buildings; and after the completion of the necessary arrangements, the institution was formally opened for the admission of students on the 1st November 1847. The following year the Boys' Model school was opened.

On the removal of the Seat of Government from Montreal to Toronto, in 1849, measures were adopted for the immediate erection of buildings for the institution. Accordingly, the Legislature, in 1850, appropriated £15,000 for the purchase of a site and erection of buildings, and an additional £10,000 in 1852—making in all £25,000. The corner stone of the new buildings was laid on the 2nd July, 1851, by His Excellency Lord Elgin, and the premises were formally opened on the 24th November 1852. A Girls' Model school was added in this year.

The institution consists of a Normal school and two Model schools; the former, the School of Instruction by Lecture; the latter, the School of Instruction by Practice. The students in the former are young persons whose ages vary from 16 or 18 to 30 and over; while the pupils in the latter are children between the ages of 5 and 16 years. In the Normal school, the teachers in training are instructed in the various English branches, as well as in the principles of education, and the best methods of communicating knowledge to the youth placed under their care,—are "taught how to teach"; and in the Model schools they are taught to give practical effect to those instructions, under the direction of teachers previously trained in the Normal school. The Model schools are designed, by both the system of instruction pursued, and the general arrangement, to be the model for the public schools of the Province.

In the admissions to the Normal school all the Counties in Upper Canada have been represented.—The number of applications for admission during the two sessions of 1862 was 341; the number admitted was 288. The number who (after an examination of several days, on paper, at the close of each session, on all the subjects taught, and as to their ability and skill in teaching and governing a school) received Provincial certificates, was 191. Teachers from the Normal school have given a tone and character to Common school teaching generally; the demand for them increases yearly; and thus the influence of the Normal school is felt throughout Upper Canada in the improved methods of school organization and teaching, as well as in the qualifications, character, and position of teachers.

struction and Training of Teachers—Normal School:*
T. J. Robertson, M.A., head master; J. H. Sangster,
M.A., 2nd master; H. G. Strachan, teacher of book-
keeping and writing; A. Coulon, drawing master;
H. F. Sefton, teacher of vocal music; captain H.
Goodwin, teacher of gymnastics and calisthenics.

*Model Schools, in which the Normal School Students
practise the art of Teaching:* J. Carlyle, master of the
Boys' school; J. C. Disher, first assistant; A. Camp-
bell, second assistant; Dorcas Clark, mistress of Girls'
school; Mary Adams, 1st assistant; Sarah Clark,
acting 2nd assistant; and the teachers of writing,
book-keeping, drawing, music, gymnastics, and calis-
thenics in the Normal school. The sessions of the
Normal school commence on the 5th of January and
5th of August, and close on the 15th of June and 15th
of December in each year.

III.—THE COUNTY GRAMMAR SCHOOLS.

Grammar schools were first established in Upper
Canada in 1807, under the name of "district schools."
The number established in that year was eight—or one
each for the eight districts into which the Province
was then divided.

In 1855, the present County Grammar school system
was established. It was designed to form a link be-
tween the common school and the university, and was
intended to provide facilities for giving "instruction
in the higher branches of a practical English and com-
mercial education, including the elements of mechanics
and natural philosophy, and also in the Greek and Lat-
in languages, and in mathematics, so far as to prepare
students for University College, or any college affiliated
to the University of Toronto."*

The course of study in these schools, and the general
regulations for their management, are prescribed by
the Council of Public Instruction for Upper Canada.
Masters must either be graduates of some university,
or possess a certificate of qualification from a commit-
tee of examiners appointed by the Council of Public
Instruction. Pupils, on entering a Grammar school,
are required to pass a preliminary examination in
"reading, writing, spelling; simple and compound
rules of arithmetic, reduction and simple proportion;
elements of English grammar and parsing; definitions
and outlines of geography." There are four grammar
school terms in each year, and the fees are determined
by the local boards of trustees. The members of these
boards are appointed by the County councils. In 1862
there were ninety-one grammar schools in Upper Can-
ada, attended by 4,982 pupils, and supported at a cost
of \$89,090, including a Legislative grant of \$39,111.

The total number of educational institutions of all
kinds, reported by the Educational Department as in
operation in Upper Canada during 1862, was 4,554,
attended by 357,572 pupils, and expending \$1,703,216
in their support.

IV.—THE EDUCATIONAL DEPARTMENT FOR UPPER CANADA.

Contemporaneous with and indicative of the growth
and development of the educational system of Upper
Canada, has been the history of the department itself.
Originally a branch of the Provincial Secretary's de-
partment (who was, *ex officio*, chief superintendent of
education), with an assistant superintendent and a
clerk, it has gradually expanded into a distinct and
important branch of the public service. It now occu-
pies, with its three excellent accessory schools, a hand-
some structure, which was specially erected by author-
ity of the Legislature for that purpose.

* 16 Vict., chap. 186.

EDUCATION—UPPER CANADA.

The Education Office was first opened in 1841 at Kingston, the then seat of Government. In 1844 it was, for convenience, removed to Cobourg (one hundred miles further west), and in 1846 to a building adjoining the old Government house, at Toronto. In 1852 it was removed to the new buildings, which were erected on a square facing on Gould, Church, Gerrard, and Victoria streets, which is now nearly in the heart of the city.

The duties devolving upon the Educational Department include those relating to the general administration of the Common and Grammar school laws; the giving of explanations to municipal councils, local superintendents, school trustees, teachers, and others, on doubtful points of law and modes of proceeding; decisions on appeals and complaints; auditing municipal school accounts; the oversight of the Normal and Model, Grammar and Common schools, and the granting of provincial certificates to teachers; paying and accounting for all the legislative grants for Grammar,

No power has been employed by the Department but that of persuasion; and no attempt has been made to advance faster than the felt necessities and convictions of the country would justify. To educate the people through themselves is the fundamental principle of the Upper Canada school system; and to assist them to advance their own best interests, and manage their own school affairs, has been the spirit and sole object of its administration.

Officers of the Department.—Rev. Egerton Ryerson, D.D., LL.D., chief superintendent of education; John George Hodgins, LL.B., F.R.G.S., deputy superintendent; Alexander Marling, LL.B., senior clerk of Department and accountant; A. Johnstone Williamson, M.D., clerk of correspondence; Francis Joseph Taylor, clerk of statistics; John T.L. Stinson, assistant clerk of statistics; James Moore, messenger of Department. *Map and Library Depository Branch.*—Samuel Passmore May, M.D., clerk of libraries; W. H. Atkinson, depository salesman; J. W. Rolph and Edward B. Cope, assistant clerks; Christopher Alderson, packer and messenger; Charles Parsons, assistant do. Offices in the Normal School buildings, Toronto.

V. UNIVERSITIES, COLLEGES AND SEMINARIES.

The University of Toronto.—The University of Toronto was established by Royal charter, of the 15th of March 1827, under the title of "King's College." The following year, 3rd of January 1828, it was endowed, by patent, with a grant of the lands which had been set apart for that purpose by the Crown in 1798, at the request of the Parliament of Upper Canada. The arrangements having been completed for opening the University, the formal inauguration of the institution and first admission of students, took place on the 8th of June 1827, and its first convocation on the 14th December 1844.

Various acts relating to the University have been passed by the Provincial Parliaments. In 1853, Parliament passed another Act (16 Victoria, cap. 89), separating the functions of the University from those assigned to it as a College, and abolishing the professorships of law and medicine, and the rights and privileges of the Convocation, which had been guaranteed in the original charter, and continued and enlarged by the Act of 1849. Under this present Act the University of Toronto is modelled after the University of London, England, and is governed by a Senate appointed by the Crown. Its functions consist in prescribing courses of study in the faculties of law, medicine, and arts, and such other branches of knowledge as may be determined; appointing examiners for ascertaining the proficiency of persons desirous of literary distinction in the appointed subjects of study; and conferring the appropriate academic degrees and honors upon such as attain the required proficiency, and comply with the prescribed regulations.

The officers of the Senate are, a chancellor, appointed by the Crown, and a vice-chancellor, elected by the Senate from amongst its members. There are no professorships in the University. Examiners are appointed annually by the Senate, in law, in medicine, and in arts, who hold examinations at such times in each year as the Senate may appoint. In addition

Common and Separate schools, and for the Normal school, the Educational depository, the Museum, pensions to superannuated teachers, and other services, providing teachers' registers, blank reports, and returns for trustees, local superintendents, clerks, and treasurers of municipalities, and the *Journal of Education* (besides editing it) to each local superintendent and school corporation in Upper Canada, the preparation of the annual report of the Chief Superintendent, general correspondence relating to the promotion of education, &c.

Educational Museum.—Connected with the Educational Department is a museum, containing specimens of school apparatus and furniture; a valuable collection of Italian, Dutch, and Flemish oil paintings, and statuary casts and busts. The museum is freely open to the public.

Some idea may be formed of the gradual progress of the work in the Department from the following statement of its correspondence since 1850:

1855.	1856.	1857.	1858.	1859.	1860.	1861.	1862.
5,338	5,739	6,294	6,431	6,468	7,121	7,215	6,495
3,764	3,966	3,542	4,027	5,823	6,015	5,656	4,955

to the academical degrees in the various faculties, the rewards for proficiency are: diplomas, scholarships (confering a yearly stipend and free tuition in University College), prizes, and certificates of honor.

Scholarships offered at examinations of the University—Faculty of Law, 4; 1 for matriculants, 1 for students 1 year's standing, 1 for students 2 years' standing, 1 for students 3 years' standing. Faculty of Medicine, 4; 1 for matriculants, 1 for students 1 year's standing, 1 for students 2 years' standing, 1 for students 3 years' standing. Faculty of Arts, 24; at the matriculation examination, 1 in the Greek and Latin classics, 1 in mathematics, 4 for general proficiency in all the subjects appointed for matriculants,—at the examination for the first year, 1 in the Greek and Latin classics, 1 in mathematics, 4 for general proficiency in all the subjects appointed for students the first year,—at the examination for the second year, 1 in the Greek and Latin classics, 1 in mathematics, 1 in the natural sciences, 1 in modern languages with history, 1 in logic, ethics and metaphysics, 1 for general proficiency in all the subjects appointed for students of the second year,—at the examination for the third year, 1 in the Greek and Latin classics, 1 in mathematics, 1 in natural sciences, 1 in modern languages, with history, 1 in ethics and metaphysics, with civil polity and history, 1 for general proficiency in all the subjects appointed for students of the third year. Value of each scholarship £30, and tenable for 1 year only.

Bursar's Department—University and Colleges at Toronto.—David Buchan, bursar; M. Drummond, bookkeeper; J. B. E. Smith, clerk; William Morrow, messenger. Office in Upper Canada College grounds.

University College, Toronto.—On the first establishment of the Provincial University, the functions of instruction as well as of determining the standard of qualification for University honors and degrees, were combined in the one institution, and were so continued under the University Act of 1849. With a view of adapting the constitution of the University to a system of affiliated colleges, the Act 16 Victoria, cap. 89, separated these functions, and established University College as a distinct collegiate institution from the University of Toronto, and under the government of a College Council, composed of a president, vice-president, and professors. By the same Act it is provided, that there shall be taught in the said College such sciences, arts, and branches of knowledge as the Council may, from time to time, determine, and as may be in accordance with the statutes of the University of Toronto, respecting the prescribed subjects for examination. *President*, rev. John McCaul, LL.D.; *Vice-President*, vacant; *Professors*, rev. John McCaul, LL.D., Trin. Coll., Dub., professor of classical literature, logic, rhetoric, and belles lettres; rev. James Beaven, D.D., St. Edm. Hall, Oxon., professor of metaphysics and ethics; H. H. Croft, D.C.L., Univ. of Toronto, professor of chemistry and experimental philosophy; George Buckland, professor of the theory and practice of agriculture; J. B. Cherriman, M.A., St. John's Coll., Cantab., professor of natural philosophy; Daniel Wilson, LL.D., Univ. St. Andrews, professor of history and English literature; rev. William Hinks, F.L.S., professor of natural history; E. J. Chapman, F.C.S., professor of mineralogy and geology; James Forneri, LL.D., Univ. Padua, professor of modern languages; G. T. Kingston, M.A., Caius Coll., Cantab., professor of meteorology, and director of the magnetic observatory. The above professors constitute the College Council. J. M. Hirschfelder, lecturer on Oriental literature; rev. Arthur Wickson, LL.D., Univ. Toronto, classical tutor and registrar; rev. Alexander Lorimer, librarian; H. Rowsell, bookseller, printer and stationer; Daniel Orris, beadle & steward.

Upper Canada College, and Royal Grammar School, in connection with the University of Toronto.—This College was established in the year 1829, by the then Lieut-Governor of Upper Canada, Sir John Colborne, (the late Lord Seaton), as an institution for general education, and which might fitly prepare the way for, and ultimately assist in filling, the Provincial University, then only projected. Having first obtained the concurrence of the College Council to the establishment of a *Royal Grammar School*, he submitted to Parliament a plan for its connection with the University; and his proposal having been acceded to, the title of the *Royal Grammar School* was changed to that of *Upper Canada College*, and the institution opened for the purposes of tuition on the 4th January 1830. The institution stands in the same relation to the University, as the Preparatory and High schools of other Universities, although supported by an endowment of its own, besides the ordinary fees from pupils. At present it is placed under the management of the Senate of the University of Toronto; but the principal, masters, and teachers are appointed by the Governor. Prizes of books and certificates of honor are given every year to those who distinguish themselves in any of the subjects taught in the College. His Excellency the Governor General offers annually a valuable prize of books for the best examinations in the higher departments of the College curriculum. At the annual public examination in July exhibitions are competed for, varying in value from \$120 to \$40 per annum. Competition for them all is open to the grammar schools of the whole Province. More than 2,500 of the youth of the Province have received their education, in whole or in part, in Upper Canada College. The first classical, and the mathematical masters, were pupils of the institution, as were likewise the greater portion of the medal-men, scholars, and honor-men of our Universities.

George R. R. Cockburn, M.A., principal; William Wedd, M.A., first classical master; James Brown, M.A., mathematical master; F. L. Checkley, Sch. T.C.D., assistant mathematical master; C. W. Cannon,

LL.D., English classical master; John Martland, BA., second classical master; Michael Barrett, M.A., M.D., first English master, and superintendent of college boarding house; rev. E. Schluter, M.A., French and German master; C. Thompson, second English master; W. J. Wadsworth, assistant master; R. J. Baigent, drawing master; captain Goodwin, fencing, drill, and gymnastics; D. Alderdice, janitor and messenger.

University of Victoria College, Cobourg.—The existence of this College is due to the efforts of the Conference of the Wesleyan Methodist Church. During the years 1828 and 1829, plans were devised for the establishment of an Academy for the superior education of both sexes; and in 1830, the Conference appointed a committee to collect subscriptions, and select a site for the proposed institution, which they then named *Upper Canada Academy*.

After offers of donations of land and money from various parts of the Province, the town of Cobourg was selected, for the liberality of its offer and central position. Upwards of \$25,000 were collected, and in the autumn of 1832 the buildings were commenced. Various circumstances, however, delayed the completion of the work; and it was not until the 18th June 1836, that the Academy was formally opened. On the 12th October of the same year, a Royal charter of incorporation was obtained; and also, about the same time, a public grant, principally through the exertions of the chief originator of the college, the rev. Egerton Ryerson, D.D., LL.D. In 1841 application was made to Parliament for an alteration in the constitution of the academy, and its establishment as a university; and accordingly the Act 4 and 5 Victoria, cap. 37, was passed, conferring the usual University powers upon its authorities, under the title of "Victoria College at Cobourg." Under this Act the management of the college is entrusted to a board, composed of nine trustees and five visitors appointed by the Conference, and to a senate, composed of the president, professors, members of the board, and certain officers of Government, for the time being. The Faculty of Arts has been in operation since 1842. In 1854 an arrangement was made with the Toronto School of Medicine, by which that institution became the Faculty of Medicine of the University; and in 1862 a Faculty of Law was added to the University. The High school, or preparatory department, sustains to the College the relation of a Grammar or High school, and is designed to qualify pupils for the University course, or to give them an elementary training in any or all of the following subjects, viz.: arithmetic, geography, history, English grammar, reading, penmanship, book-keeping, algebra, natural philosophy, French, Latin, and Greek languages. Students presenting themselves for admission into this department, are classed according to their attainments, and instructed in such branches as are deemed most suitable. No religious tests are prescribed; but all students are required to attend divine service on the Sabbath, in connection with whatever church they or their parents prefer. They are also required to attend prayers, with the reading of the Scriptures, in the College chapel, in the morning and evening of each day. The institution is supported by the sale of scholarships, fees, and an annual Parliamentary grant. Its landed endowment income is limited by the charter of incorporation to £2,000 sterling per annum. It has no permanent endowment, and is supported by voluntary contributions and fees, supplemented by an annual Parliamentary grant of \$5,000; also \$1,000 to the Faculty of Medicine. Its annual income from these sources (not including the Medical Faculty) amounts to about \$9,500. The number of professors and tutors in the Faculties of Arts and Medicine, including the president, is fourteen. The number of students is about two hundred, not including preparatory students.

The Prince of Wales' gold and silver medals, and three or more prizes in books, are annually distributed among the most deserving students. In the Medical Faculty there are two scholarships of \$100 each.

University Senate.—Rev. S. S. Nelles, D.D., pres't; President of Executive Council, Speaker of Legislative Council, Speaker of Legislative Assembly, Attorney General for Upper Canada, Solicitor General for Upper Canada, rev. J. worth, M.D., professors Kingston, Wilson, Whitlock, and Harris; hon. Dr. Rolph, hon. Jas. Ferrier; professors Geikie, Berryman, Reid, Hall, R. Woods-worth, James L. Biggar, M.P.P., J. Metcalf, J. H. Dumble, M.A., Amos Wright, M.P.P., Wm. Kerr, M.A., W. W. Dean, B.A., C. M. Cameron, M.A., M.D., M. Lavelle, M.D., Wm. Anglin, and J. Beatty, M.D. *Faculty of Arts*.—Rev. S. S. Nelles, D.D., president, prof. of mental philosophy, logic, ethics, and the evidences of religion; William Kingston, M.A., prof. of mathematics and astronomy; John Wilson, M.A., prof. of Latin and Greek languages; rev. G. C. Whitlock, LL.D., prof. of natural philosophy and natural history; E. P. Harris, Ph.D., prof. of chemistry and modern languages; rev. A. H. Reyner, B.A., classical tutor; A. R. Bain, B.A., English tutor; W. H. McIvle, B.A., mathematical tutor, *Faculty of Medicine*.—Hon. John Rolph, M.D., LL.D., M.R.C.S., Eng., prof. of medicine and medical pathology; J. W. Corson, M.D., do.; W. B. Geikie, M.D., prof. of midwifery and diseases of women and children; C. V. Berryman, M.D., M.A., prof. of materia medica and therapeutics; John N. Reid, M.D., prof. of institutes of medicine; John H. Sangster, M.A., prof. of chemistry and botany; Jas. Newcomb, M.D., M.R.C.S., Eng., L.R.C.P., London, prof. of principles and practice of surgery; C. B. Hall, M.D., do.; C. V. Berryman, M.D., M.A., prof. of medical jurisprudence; hon. John Rolph, M.D., LL.D., M.R.C.S., Eng., prof. of general anatomy; A. R. Strachan, M.D., do.; James Newcomb, M.D., M.R.C.S., Eng., prof. of surgical anatomy; James H. Faris, M.D., prof. of practical anatomy; Samuel P. May, M.D., curator of Museum. *Faculty of Law*.—Hon. Lewis Wallbridge, Speaker of the Legislative Assembly, and Robert A. Harrison, B.C.L., examiners. The lectures in medicine are delivered in Toronto.

University of Queen's College, Kingston. Queen's College was established by the Synod of the Presbyterian Church of Canada, in connection with the Church of Scotland, and was originally incorporated by an act of the Parliament of Upper Canada, 3 Vict. cap. 38, as *The University at Kingston*. This act, however, was disallowed, and a Royal Charter granted the following year, bearing date 10th October 1841, and conferring the title of "Queen's College at Kingston," with power to confer degrees in the several arts and faculties. No religious test or qualification is required of persons matriculated or admitted to a degree, "save only that all persons admitted within the said College to any degree in Divinity, shall make the same declarations and subscriptions as are required of persons admitted to any degree in Divinity in the University of Edinburgh." The management of the institution is entrusted to twenty-seven trustees—twelve clergymen and fifteen laymen—appointed by the Synod of the Church; and to a College Senate, composed of the principal and professors for the time being. In 1846 the property originally vested in the corporation created by the disallowed Act of 1840, was transferred to the corporation of Queen's College by the Act of 9 Vic., cap. 89. The institution is supported by income from endowment, a grant from the Legislature, subscriptions, and assistance from Church funds. By the charter its income may be £15,000 sterling per annum. It is the only University in Upper Canada which contains the four faculties of arts, theology, law and medicine. Its endowment fund amounts to \$101,738, and its annual income to about \$13,300, including a Parliamentary grant of \$5,000 to the Faculty of Arts, and \$1,000 to the Faculty of Medicine, and \$1,700 from the Colonial committee of the Church of Scotland to the Faculty of Theology. The number of professors in the several faculties is eighteen, including the principal. The number of students is about one hundred and eighty.

Principal: the very rev. Wm. Leitch, D.D. *Faculties of Theology and Arts.*—Very rev. principal Leitch, D.D., *primarius* prof. of divinity; rev. John B. Morris, M.P.P., J. Thompson, George Davidson, John Green-shields, hon. J. Hamilton (chairman), Judge Logie, Edward Malloch, William Ireland, secretary to the Board of Trustees.

University of Trinity College, Toronto.—Trinity College owes its establishment to the persevering efforts of the present Bishop of Toronto, the right rev. Dr. Strachan. Previous to the opening of the Provincial University, and about two years before the organization of its Faculty of Divinity, the Bishop established a Diocesan Theological College at Cobourg, for the education of candidates for Holy orders, and appointed one of his chaplains to be professor of divinity for his diocese. This arrangement continued during the existence of a similar professorship in the University, and became the means of educating about nine-tenths of the clergy who were ordained during the continuance of the two theological schools.

The Act of 1849, while it abolished the distinctive theological character of the Provincial University, continued its professors. Measures, however, were adopted, in 1850, for the establishment of Trinity College; and an appeal was made by the Bishop to the members of the Church of England in Canada and England. The appeal was liberally responded to. In 1851, Parliament incorporated the proposed Church institution, under the title of "Trinity College;" and on the 15th of Jan. 1852, the College was formally opened for the admission of students. On the 10th of July of the same year, after correspondence and modification of the original draft, a Royal Charter was obtained, conferring the usual University powers to grant degrees in divinity, law, medicine, and arts. The corporation created by the Act consists of the Bishop and such persons as he may appoint to be the trustees and council of the College, and may hold property to the value of \$30,000 per annum, subject to the provision that "the corporation shall at all times, when called upon so to do by the Governor of the Province, render an account in writing of their property, setting forth in particular the amount of income, and from what property derived; and also the number of members of the corporation, the number of teachers and students, and the course of instruction pursued."

This University confers no degree whatever unless the candidate has previously taken the oath of allegiance and supremacy, and subscribed the following declaration: "I, —, do willingly and heartily declare that I am truly and sincerely a member of the United Church of England and Ireland."

The institution is liberally endowed by private subscriptions of money and lands, and grants from public bodies. The buildings for the University were erected at a cost of nearly \$55,000. About \$200,000 were collected to form endowment. The annual income of the College is about \$17,000. The number of professors is seven, including the provost, or head of the College.

Corporation.—The hon. and right rev. the Lord Bishop of Toronto; the right rev. the Lord Bishop of Huron; the right rev. the Lord Bishop of Ontario. *Trustees.*—Rev. H. J. Grasset, B.D.; hon. G. W. matics, of Greek and Latin, and of the natural sciences, besides a lady teacher of music. The sessions begin in May and September. Rev. A. Carman, M.A., principal, and professor of mathematics, history and English literature; rev. H. P. Shepard, M.A., professor of the Latin and Greek languages; J. E. Howell, B.A., professor of natural science, and rector of English department; Miss Anne Green, preceptress, and teacher of music, piano, melodeon and guitar, and the French language; Mrs. A. Carman, assistant in French and music; Mrs. H. P. Shepard, teacher of drawing and painting of all kinds. Besides the above, others not of the Faculty are employed to teach in the institution.

The Canadian Literary Institute—Was established at Woodstock, county of Oxford, in 1857-8, by the regular Baptists of Upper Canada. It is under the control of that body, and is chiefly designed to afford instruction in the primary and higher English branches of education to young ladies and young gentlemen. It also includes a theological department. The course of study in the higher departments is so arranged as to suit male students both in classics and natural sciences. It is also designed to prepare male students for admission to the Law Society, or for matriculation in the faculties of arts, law, or medicine, in the University of Toronto. In the course for young ladies, classics and the higher mathematics are omitted. In the primary department no pupil under eleven years of age is admissible. The number of pupils in attendance in these branches in 1861, was one hundred and thirty-four; in the theological class, twenty-seven; total, one hundred and sixty-one. The officers of the institution are six, viz.: a principal, two other male teachers, and three female teachers. Rev. R. A. Fife, D.D., principal, and professor of theology; J. E. Wells, jun., A.M., classical teacher; C. B. Hankinson, B.S., mathematical teacher; W. D. Bellantyne, teacher of English and French; P. S. Vining, teacher of painting and drawing; Mrs. Revel, teacher of instrumental music. Mrs. S. T. Cooke, matron; S. T. Cooke, steward. *Officers of the Board of Trustees*: Abram Carrol, Brockville, chairman; F. B. Scofield, Woodstock, treasurer; W. H. Burch, Woodstock, secretary.

Wesleyan Female College, Hamilton.—The Wesleyan Female College, a proprietary institution in connection with the Conference of the Wesleyan Methodist Church in Canada, was established at the city of Hamilton in 1861. It is designed to furnish a superior education in the English branches to young ladies exclusively. The proprietors of the college are an incorporated body, possessed of one or more shares of the value of one hundred dollars each. The officers of the college are eight, viz.: a principal, five female, and two male teachers, besides a Governor and Chaplain.

Rev. S. D. Rice, governor and chaplain. *Faculty of Instruction*: Miss M. E. Adams, principal; W. P. Wright, M.A., natural sciences and classics; Miss A. M. Adams, mathematics; Miss Holland, higher English; Miss Rich, the preparatory department; A. Vischer, teacher of music; Miss Ruthven, assistant teacher of music; Miss Sterling, teacher of French; rev. Dr. Freshman, German and Hebrew; Miss Harrison, drawing and oil painting. *Directors*: Edward Jackson, Joseph Lister, J. W. Rosebrough, M.D., rev. E. Wood, D.D., Simeon Morrill, rev. S. Rose, John Bredin, rev. R. Jones, A. McCallum, rev. S. D. Rice, C. McQuesten, Wm. Boice, Edw. Gurney, John Lewis, rev. S. S. Nelles, D.D., W. Atglin, rev. W. Jeffers, C.D., T. Baxter, D. Moore, Geo. Roach, rev. James Elliott. *Officers of the Board*: E. Jackson, president; C. McQuesten, M.D., vice-president; Jos. Lister, treasurer; rev. S. D. Rice, secretary.

The Friends' Seminary, Picton.—The Friends' Seminary was established near Picton, in the county of Prince Edward, in 1841, under the direction and control of the Society of Friends. The seminary is situated on a farm of one hundred acres, and will accommodate about sixty male and female pupils. At present, instruction is given in the English branches only; but exertions are shortly expected to be made to introduce the study of the classics into the seminary. It is intended, also, to erect more suitable buildings, capable of holding eighty pupils. The officers of the institution are a superintendent, a matron, and other teachers—all of whom are members of the Society of Friends. There are two terms,—a winter and a summer term.

VI.—VARIOUS ENDOWMENTS AND SUMS AVAILABLE FOR EDUCATIONAL PURPOSES IN UPPER CANADA.

I. *The Educational Lands Endowment*.—Through the munificence of the King and others the following lands were set apart for the objects named:

	Acres.
1. County Grammar schools.....	258,330
2. University institutions.....	226,200
3. Upper Canada College.....	66,000
4. Trinity College (from private sources).....	23,590
5. Half of the Parliamentary appropriation of one million acres of land for Common schools in each part of the Province.....	500,000

Grand total number of acres..... 1,074,120

II. *The State Endowments of Education, etc. (1862.)*

1. Parliamentary grant to superior education (i. e., Colleges and Universities).....	\$20,000
Less applied to Grammar schools, as below.....	3,200
	\$16,800
2. Income of University College, Toronto, and Upper Canada College from lands, &c., about.....	75,000
3. Parliamentary grant to Grammar schools, from lands, &c. 22,619	
Parliamentary grant to Grammar schools, \$10,000, and \$3,200 (as above).....	13,200
	85,819
Parliamentary grant to three Medical schools.....	3,000
Parliamentary grant to three Literary institutions, &c....	1,800
Parliamentary grant to two Observatories.....	5,300
	10,100
	\$187,719
4. Parliamentary grant to Common schools, from lands, &c.	186,062
Grand total annual endowment.....	\$323,761

III. *Income from Local Sources—School Rates, Fees, etc.*

1. Colleges, &c. (1862), about.....	\$35,000
2. Grammar schools (1862).....	60,980
3. (a.) Common schools (1862) by trustees).....	694,118
(b.) Common schools (1862) by municipal tax.....	274,471
(c.) Clergy Reserve fund, &c.....	112,524
4. Private schools (1862) about.....	45,500

Grand total annual income from taxes, fees, &c..... \$1,212,598

* Balances due but not collected were included until 1863, but from that date Nos. 18, 19, 20, 21, 22 and 24, represent actual payments only. If we add to the Grand Total (24) the unexpended balances, \$167,976, we should have an available sum of \$1,703,216 for Educational purposes during 1862; and for 1861, \$1,670,024—the increase in 1862 being \$33,192.

NOTE.—The returns up to the year 1849 are not very complete; but since that period they have been sufficiently so as to establish data by which to compare our yearly progress in educational matters. The returns are now fairly extensive, and embrace all institutions of learning, from the Common school up to the University; but hitherto the sources of information regarding this latter class of institutions have been rather private than official, which should not be the case. The annual report of a department of Public Instruction, should present in one comprehensive tabular view, the actual state and progress of ALL our educational institutions—primary, intermediate, and superior.

VIII.—THE NUMBER, CHARACTER, AND VALUE OF OUR EDUCATIONAL INSTITUTIONS.*—In Upper Canada there are the following educational institutions, viz:

NAME OR DESCRIPTION OF INSTITUTION.	No. Professors or Teachers.	No. of Students or Pupils.	Estimated Value of Land and Buildings.	Estim. Value of Sch'l Furniture, Maps, Appara- tus, Museums, and Libraries.	Estimated An- nual Income.	Religious Denomination.

* In many instances the information contained under this head is necessarily defective. Circulars were sent to the various institutions named, but replies to the several questions were not received, and in some instances, no reply whatever was received.

† In addition to these purely theological colleges, there are theological faculties in the Universities of Trinity College, Toronto, and Queen's College, Kingston, as well as the Roman Catholic Colleges at Ottawa, Kingston, and Toronto, and in the Baptist Literary Institute, at Woodstock.

SKETCH OF THE PROGRESS OF EDUCATION IN LOWER CANADA.

The Government of Old France had given a great deal of attention to the subject of public instruction in Canada. It appears that the first school in Canada was opened at Three Rivers in 1616 by Father Pacifique Duplessis, a Franciscan. In 1618 a school was also in operation, at Tadoussac, under Father Joseph LeCaron, of the same order. The Jesuits opened a school at Quebec in 1632, which became a great and flourishing College. The Seminary at Quebec was founded by Mgr. De Laval in 1663. The College of St. Sulpice at Montreal, (1773), and the Nunnery of the Ursulines at Quebec, (1640) were also among the first institutions opened in this country. The Frères Charrons, a religious order, and subsequently the Frères des Ecoles Chrétiennes, also had schools for elementary education in Canada under the French regime, but they were discontinued after a short time. The pious Marguerite Bourgeois, whose name is now surrounded with veneration by all Canadians, founded, in 1663, the order of La Congrégation de Notre Dame, which has now in the city of Montreal alone 4000 pupils, and numerous convents all over Canada, the Provinces below, and the U. States.

The Franciscans had a good many elementary schools for boys before the Conquest, and the Jesuits supported out of their revenues several lay teachers, who were mostly old pupils of their college. The two orders having been suppressed during the first years of the new regime, there remained for a long time scarcely any other schools but the two Seminaries of Quebec and Montreal, the Convents of the Ursulines at Quebec and at Three Rivers, and the schools of the Congregation of Notre Dame at Montreal and at several villages throughout the country. Indeed, although the Sisters did not admit boys into their schools, a great portion of the education received by the men in the country parishes is due to them; many a mother who was taught by them, having in her turn educated her own children of both sexes.

Lord Dorchester, Governor of the Province of Quebec, appointed, in 1787, a commission to inquire into the subject of education. That commission recommended the establishment of an elementary school in each parish, of a model school in each county, and of a non-sectarian university. The whole was to be endowed

with the Jesuits' lands. Bishop Oudry, Bishop of Montreal, by it was dissolved. The Royal Institution was created, composed of people had mostly imposed out any known decided failure had 37 schools, 84 scholars passed, encouragement in the Paris establishment of agency of the instituted under the care of the warden. It number more school could to acquire a build a new its revenues.

In 1829 an of school trustees payment of a whose school addition of any poor far statute provided one half of the certain condition £2000 per annum passed amended. They contain academics, and to the Queen of the Legislature at Quebec the auspices instructed by Abbé de Lévesque.

Various visiting school distribution statutes proposed; School; and Seminary of of visiting the procuring portions of national end of 1835, mal school in A Normal school troubles having Constitution be given up, and Mr. Rogers, surveyor, reformed professor in the

with the Jesuits' estates and by grants from the Crown lands. Bishop Hubert opposed the plan, whilst his coadjutor, Bishop Bailly, supported it; and ultimately it was dropped by the Government. In 1801, the Royal Institution for the Advancement of Learning was created; but the members of the Board being composed of men with whom the great majority of the people had no sympathies, and the teachers being mostly imported from the United Kingdom, and without any knowledge of the French language, it was a decided failure. After twenty years of existence, it had 37 schools and 1048 pupils. It reached as a maximum 84 schools and 3075 pupils. In 1824, the Legislature passed an Act entitled, "An Act for the Encouragement and Endowment of Elementary schools in the Parishes." That Act provided for the establishment of one school in each parish, through the agency of the *fabriques*, which are corporate bodies, instituted under the old laws of France, consisting of the *cure* or rector, and of the *marguilliers* or churchwardens. It provided that whenever the parish would number more than two hundred families, a second school could be opened. The *fabrique* was authorized to acquire and possess one acre of land whereon to build a new schoolhouse, and to apply one fourth of its revenues to the maintenance of the schools.

In 1829 an Act was passed providing for the election of school trustees in each parish or township—for the payment of a salary of twenty pounds to each teacher whose school would number twenty pupils, with an addition of ten shillings for each pupil belonging to any poor family taught free in the school. The same statute provided also that the Government was to pay one half of the building of school-houses, under certain conditions; the whole amount not to exceed £2000 per annum. Several Acts were subsequently passed amending and extending those previous Acts. They contain provisions for aid to colleges and girls' academies, and various sums voted to Mr. Perrault and to the Quebec Education society for the introduction of the Lancasterian system. A deaf and dumb institute at Quebec was also provided for, and under the auspices of Mr. Ronald Macdonald, who had been instructed by Mr. Leclerc, himself a disciple of the Abbé de Lépée, it realized every expectation.

Various wise enactments for collecting statistics, for visiting schools by Members of Parliament, and for the distribution of prize-books, were made. One of the statutes provided also for the erection of a Normal School; and the Rev. John Holmes, principal of the Seminary of Quebec, was sent to Europe with a view of visiting the normal schools of the old world, and of procuring professors, books, apparatus, and collections of natural history. He returned towards the end of 1833, with Mr. Regnaud, the director of a Normal school in France, and Mr. Findlater from Scotland. A Normal school was opened in Montreal; but the troubles having broken out a short time after, and the Constitution having been suspended, the school had to be given up. Mr. Findlater went back to Scotland, and Mr. Regnaud, finding employment here as a land surveyor, remained in the country, and is now a professor in the Jacques Cartier Normal School.

The provisions for the maintenance of the Common Schools having been allowed to fall through by the Legislative Council, during its quarrels with the House of Assembly, the system which had been gradually maturing itself was destroyed. This was the second great blow aimed at the educational institutions of Lower Canada. The first was the confiscation of the Jesuits' and Franciscans' estates, shortly after the Conquest. When the second calamity befel us, there was under the operation of the law 1600 schools, wherein 40,000 children were taught; most of which had to be closed. In the meantime, however, several colleges had been erected and were in a most flourishing condition. When Lord Durham came here, with all the powers and attributes of vice-royalty, he found, as he had stated, Lower Canada in the anomalous position of a country where superior education was amply provided for, while nothing almost was done for elementary education. In his Report, however, he paid to our classical institutions a just tribute of praise.

After the Union of the Provinces, the Legislature passed, in 1841, a law for the establishment and maintenance of public schools. It provided for the appointment of a Superintendent of Education for the whole Province, and appropriated a sum of £50,000 for the

support of common schools, to be apportioned between the several municipal districts in proportion to the number of children of school age in each of them. The Hon. Mr. Jamieson was appointed Superintendent under this law; but to meet the wants of the two sections of the Province, the Rev. Mr. Murray and Dr. Meilleur were also appointed Superintendents, the former for Upper and the latter for Lower Canada. Dr. Meilleur had been a member of the Provincial Parliament of Lower Canada for several years, and had published various elementary works. He had also been one of the founders and directors of the College of L'Assomption. In 1845 another law was passed, applying chiefly to Lower Canada, and providing for the appointment of a Superintendent for each section, and containing a great many new regulations that had been omitted in the first law. This was again superseded by the law of 1846, which is the foundation of the several laws now in force. One of its most important features was that it made the assessment compulsory, and did away with the voluntary contributions. That important step was however altered in 1840, when a law containing various amendments, most of which, giving to the Superintendent powers of a quasi judicial nature in matters controverted between the parties to the school law, restored the voluntary contribution, which however, at present, in most of the Municipalities, the good sense of the people has set aside for the legal assessment. It also contained new provisions concerning the monthly fees and the powers of the Boards of Examiners. Another law passed in 1851, provided for the establishment of a Normal School and for the appointment of School Inspectors. In 1855, Dr. Meilleur resigned his office, and was appointed to that of postmaster at Montreal. He left a name untarnished for his assiduity, perseverance, and integrity, and considering the great difficulties he had to contend with, by the violent opposition to school assessment, made in several parts of the country by contemptible seekers of popular fame, justly branded with the French name of *eteignoirs*, he may be said to have been generally successful in his administration. Dr. Meilleur is now without a situation, and his claims on the Government for a pension are strongly urged by all the friends of education. He was succeeded by the Hon. Pierre J. O. Chauveau, who had been a Member of Parliament for the County of Quebec during eleven years, and had filled successively the offices of Solicitor General for Lower Canada and of Secretary of the Province.

In his first report, Mr. Chauveau recommended various reforms; and for the accomplishment of most of them, two laws were passed in the session of 1856. One of them chiefly relates to superior, the other to elementary education. The most important features of this new legislation consisted in providing for the distribution through the Superintendent, and on his report, of the annual grants to Universities, Colleges, Academies, and Model Schools; the creation of several Normal Schools instead of one; the publication of Journals of Education; the appointment of a Council of Public Instruction, and the creation of a teachers' pension fund, on the same principle as that of Upper Canada. These measures have all been carried into effect. There are now published two Journals of Education, one in French and the other in English. They are issued alternately every fortnight, are conducted by the Superintendent with an assistant for each of them, and, with the exception of the official notices, the articles and selections are different in each. The price of subscription is one dollar for each. Teachers are allowed a copy of both, or two copies of either for the same price. It is sent free to public institutions, and to the School Commissioners for their use and that of teachers unable to subscribe. Each number contains one or more illustrations. The issue of the *Journal de L'Instruction Publique* is 4,000 copies, that of the *Journal of Education* 2,000. The former has nearly 1100 paying subscribers, the latter about 400. Both Journals have been mentioned in the most flattering terms in the report of the Jury of the London Exhibition of 1862 on the Educational department, and a first class medal has been granted to their editor. These will enter on their eighteenth volume on the 1st January 1864.

The Jacques Cartier and McGill Normal Schools were inaugurated in Montreal on the 2nd of March, 1857. The Laval Normal School was opened at Quebec on the 16th of May of the same year. The McGill Normal

School is intended for Protestants, and the teaching is carried on chiefly in the English language; but the French language is also taught with great care. The two others are intended for Catholics; and the teaching is carried on chiefly in French. The English language is however taught to the French pupils; and arrangements have been made that instruction may be also imparted to any English pupil-teacher in his own vernacular. In the Model Schools there are French and English teachers, about an equal number of children of each origin, and the two languages are placed precisely on the same footing. The McGill School started with the boys' and girls' department in full operation. The girls' department of the Laval Normal School was opened on the 15th of September 1857. The girls are boarders at the Ursuline Convent, but the instruction is chiefly imparted by the professors of the Normal School. The girls' department of the Jacques Cartier Normal School is not yet organized.

Element'y do.	57	21	136	157	13	48	61	91	183			

These figures give more than the number of pupils who have retired from the Normal schools with diplomas, several having obtained diplomas in each degree. The total number of pupils who had graduated was as follows:

At the Jacques Cartier school..... 79
At the McGill school..... 167
At the Laval school..... 160

Besides carrying into effect the several provisions of the laws above mentioned, Mr. Chauveau has also re-organized the department by the appointment of more clerks, and a better division of labor; assisted in the creation of the Association of Teachers in connection with the Normal schools; caused the distribution of prize-books by the inspectors on their visits; and formed a departmental library, which numbers about 9,000 volumes.

The pecuniary responsibilities, as well as the correspondence and general business of the department, has been greatly increased, and both are still daily increasing.

In the year 1862, the sum of \$256,769 was distributed under the following heads: Common School fund, \$112,054; Superior Education, \$69,888; Normal schools, \$36,888; Journals of Education, \$2,839; Government grant, \$1,800; Teachers' Pension fund, \$2,464; Departmental Library, \$1,797; Poor Municipalities, \$3,913; School Inspectors, \$19,025; Prize Books, \$1,522; Contingencies, \$6,224.

Separate accounts, with vouchers, in duplicate, are kept for each of these heads of expenditure, and the

payments take place through an immense number of small checks.

The following registers have to be kept: a register of the election and appointment of school commissioners and school trustees; a register of the appointment of members of boards of examiners; a register of the diplomas granted to teachers by the boards of examiners; three registers of the Normal school diplomas; a register of the daily correspondence; a register of special reports to the executive government; a register of the erection or separation of school municipalities; a register of the decisions given or sentences adduced by the superintendent on appeals in the settlement of accounts between the school commissioners and their secretary-treasurers, on the appeals from the decisions of the school commissioners as to the formation of school districts, and on the selection of school sites; also of the documents authorizing the sale of school property by school authorities; and lastly, a register of the proceedings of the council of public instruction.

The importance of the work in the statistical department appears by the publication of the annual report. The correspondence is kept on files, each case receiving a number which it retains until it is terminated. The files for 1863 have reached 3,300, each containing on an average three drafts of letters. Besides the mailing of several thousand copies of the annual report, and of the Journals of Education, numerous blanks and documents are daily sent and received. The number of letters and documents sent in 1862 was 11,738; the number received, 8,275. In 1863 the former have reached 14,500, and the latter 8,761.

The legislation which has taken place since 1856 has been chiefly to define the powers of the department and those of the council of public instruction. The council was organized on the 16th of December 1859.

Its chief attributes are the forming of rules and regulations for school discipline, the selection of books, maps, &c., to be used in schools, to the exclusion of all others; to provide rules for the classification of schools and of teachers; to provide for the organization and government of boards of examiners, and for all matters concerning the granting of diplomas to teachers; and lastly, to revoke the said diplomas on trial of the accused in cases of immorality or neglect of duty.

The council has appointed three standing committees: one for the forming and maintaining of rules for its own internal discipline, one for the selection of books for schools, and a third for the forming of rules and regulations for the various objects above mentioned.

In order to meet the difficulty which always occurs in the selection of school books from the fact that even books of purely secular instruction are often more or less tainted with the religious views of their authors, the Council have agreed that the recommendations from the Committee on books will be of three different natures: books are recommended either by the whole Committee, or by the Protestant members, or by the Catholic members only. The committee of approval mention the facts whereby parents and teachers are made aware of the religious tendency of the books.

The Council have adopted rules and regulations for the guidance of Boards of Examiners with programmes, which can be obtained in pamphlet form by applying to the Education office or to any of the Inspectors of Schools. (*)

The local jurisdiction of the Boards has been defined, and six of them only, viz., the Protestant and Catholic Boards of Quebec and of Montreal, the Boards of Sherbrooke and of Three Rivers, have the power of granting diplomas for Academies and for Model Schools.

The difference between these diplomas or certificates and those granted by the Superintendent to the pupils of the Normal Schools is that the former are only good for the space of three years and over a limited portion of Lower Canada, while the latter confer the power of teaching in the whole extent of Lower Canada and need not be renewed.

It has been found that under these new rules and regulations a great advance has already been made in the qualifications of teachers, and the department has been enforcing the law more rigidly. Municipalities employing unlicensed teachers lose the annual government grant.

The Council of Public Instruction is at present composed as follows:

Hon. Sir Etienne Paschal Taché, Knight, M.C., President; the Right Reverend Joseph Laroque, Bishop of St. Hyacinthe; Honorable Louis Victor Sicotte; Honorable Thomas Jean-Jacques Loranger; Christopher Dunkin, Esq., M.P.P.; the Reverend Patrick Dowd; the Reverend John Cook, D.D.; the Reverend Elzéar Alexandre Taschereau, D.C.L.; Côme Séraphin Ché-

rier, LL.D.; Jacques Crémazie, LL.D.; Hon. A. T. Galt; Louis L. L. Desaulniers, Cyrille Delagrave, Reverend William T. Leach, D.C.L.; and the Hon. Pierre J. O. Chauveau, LL.D., member *ex-officio*. Louis Giard Esq., recording Secretary.

The Superintendent in his report published in 1863, gives the following statement of the general progress of education in Lower Canada since 1854.

	1854.	1855.	1856.	1857.	1858.	1859.	1860.	1861.	1862.	Inc. over 1861.	Inc. over 1855.	Inc. over 1853.
Institutions	2795	2868	2919	2946	2985	3199	3264	3345	3501	656	633	1149
Pupils	119733	127058	143141	148798	156872	168148	172155	180945	188635	7790	61577	80851
Contributions	238032	249136	406764	424208	459396	498436	508359	526219	542728	16509	293592	376880

"The increase in the number of institutions, which was 81 in 1861, is 156 in 1862.

"The increase in the number of pupils is 7,790. In contributions \$16,509; last year, it was \$22,360 over the previous year.

"The number of primary schools receiving aid, as well as independent, is 3,278 this year; and the number of their pupils, which was 151,272 in 1861, is 158,465 in 1862.

"This again proves that primary schools have increased in greater proportion than secondary schools."

The system of inspection followed in Lower Canada has been frequently objected to, and the Superintendent has been directed to make a special report on the subject. In that document, published by order of Parliament, the Superintendent strives first to establish the importance of inspection, and quotes the authority of statesmen of other countries. Among others the following passage from Mr. Guizot's *Memoirs* is to be found in the said report:—

"Another plan, unforeseen and difficult of execution, appeared to me necessary in order to establish relations with the teachers dispersed throughout France, to know them really and to act upon them in other ways than by casual and empty words. One month after the promulgation of the new law, I ordered a general inspection of all the elementary schools in the kingdom, public or private. I desired not only to verify the external and material facts which usually form the object of statistical inquiries on the question of primary instruction,—such as the number of schools and scholars, their classification, their age, and the incidental expenses of the service,—but I particularly directed the Inspector to study the interior economy of the schools, the aptitude, zeal, and conduct of the teachers, their relations with the pupils, the families, and the local authorities, civil and religious; in a word, the moral state of that branch of education, and its results. Facts of this nature cannot be ascertained at a distance, by means of correspondence, or descriptions. Special visits, personal communication, and a close examination of men and things, are indispensable to this just estimate and understanding. Four hundred and ninety persons, the greater number of whom were functionaries of every order in the university, gave themselves up during four months to this arduous investigation. Thirty-three thousand four hundred and fifty-six schools were actually visited, and minutely described in the Reports addressed to me by the Inspectors. One amongst the number, with whose rare ability and indefatigable zeal I had long been familiar, Mr. Lorain, now an honorary rector, drew up from these collected Reports a table of elementary instructions in France in 1833, even more remarkable for the moral and practicable views therein developed, than for the number and variety of the facts comprised. This

laborious undertaking not only had the effect of giving me a more complete and precise knowledge of the condition and real necessities of elementary instruction, but it furnished the public, in the most remote corners of the country, with a living instance of the active solicitude of the Government for popular education. At the same time it powerfully stimulated the teachers, by impressing on them a sense of the interest attached to their office, and of the vigilance with which they were overlooked.

"Two years later, on my proposition, a Royal decree transformed this casual and single inspection of the Elementary Schools into a permanent arrangement. In every district an Inspector was appointed to visit the schools at stated periods, and to communicate fully to the Minister, the Rectors, the Prefects, and the General and Municipal Councils their condition and wants.

"Since that time, and throughout repeated debates, whether in the Chambers or in the Local and Elective Councils, the utility of this institution has become so apparent, that, at the request of a majority of the councils, an Inspector has been established in every district, and the periodical inspection of Elementary Schools has taken its place in the administration of public instruction as one of the most effective guarantees of their sufficiency and progress."

The Superintendent thus concludes.

"I recapitulate as follows:—I should prefer some improvement of the present system to any actual change, as I have shown at the close of the first section of this report; 2. The reduction of the number of inspectors, so as to increase the amount of remuneration and yet to diminish the actual expenditure, seems to me very difficult to be effected. Assuming such a reduction, I should recommend the plan set forth in table B. Twelve districts, instead of ten laid down in the table, would seem preferable, and afford room to diminish the extent of Districts 3, 6, and 7. But in that case it would be requisite either to lower the proposed rates of salaries, or otherwise to give up the hope of any saving. With twelve inspectors and the following scale of salaries, \$1,200, \$1,400, and \$1,600, we should reach \$16,300, and effect a saving of rather more than \$600. I fear the above rates of salary would be too

low. It would be found necessary to turn to the consideration of another system of remuneration, that of allowing so much for fees for each school visitation, and so much for travelling expenses per day when absent from place of residence. 3. It does not appear to me practicable, in the present state of the municipal system of Lower Canada and of the law respecting public instruction, to relieve this department from the expense and labor of the inspection of schools, and it is my sincere conviction, that for a long time to come, no system of purely municipal inspection can be brought to work with advantage."

The following is a recapitulation of all the educational institutions of Lower Canada. The Superior schools comprise Universities and schools of Law and of Medicine; Secondary schools are Classical colleges, Industrial colleges, and Academies; Special schools are Deaf and Dumb institutes, schools of Agriculture, and schools of Arts and Manufactures; and Primary schools comprise Model and Elementary schools. The Model schools receive from \$70 to \$100 from the Superior Education fund. Some of the large Charity schools in the town receive larger grants.

The following tables are an abstract from the last triennial report of the Superintendent, and contain

the most valuable part of the information on the Superior, Secondary, and Special schools. From an order passed by the joint committee of the two Houses of Parliament on printing, this information is published at full length only every third year. All the other figures are from the last annual report.

Since the compilation of the following tables a few institutions have been established, among which we notice "Morrin College," at Quebec; the "Academy St. Denis," by the ladies of the congregation Notre Dame, at Montreal; and a School of Agriculture, at St. Thérèse de Blainville.

Morrin College is affiliated to the McGill University, and is installed in the fine building known as the Freemasons' Hall, in Quebec. It was founded chiefly by a bequest of the late Dr. Morrin, for a period of many years one of the ablest and most esteemed physicians of Quebec.

The "Academy St. Denis" is a day school, of a superior character, which the ladies of the congregation of Notre Dame have opened in Montreal. It is attended by over 100 pupils.

The School of Agriculture of St. Thérèse de Blainville is acting, in the district of Montreal, the same part as the school at Ste. Anne, in the district of Quebec. There is a model farm attached to the establishment. The Lower Canada Board of Agriculture has just now founded nineteen scholarships, to be divided between the two schools, and to be given to competitors one in each of the judiciary districts. The presentation devolves on a meeting of the presidents of the county agricultural associations in each district. Each scholarship is fixed at \$50.

M'GILL UNIVERSITY, MONTREAL.

Visitor.—His Excellency the Right Hon. Viscount Lord MONCK, Governor General of British North America, &c.

Governors.—The hon. Charles Dewey Day, LL.D., president; hon. James Ferrier, M.L.C.; Thomas Brown Anderson, David Davidson, Benjamin Holmes, Andrew Robertson, M.A.; Christopher Dunkin, M.A., M.P.P.; William Molson, Alex. Morris, M.A., M.P.P.

Principal.—John William Dawson, LL.D., F.R.S., F.G.S.

Fellows.—Rev. Canon Leach, D.C.L., vice-principal and Dean of the Faculty of Arts; Henry Aspinwall Howe, M.A., rector of the High School; hon. J. J. C. Abbott, B.C.L., M.P.P., Dean of the Faculty of Law; G. W. Campbell, M.A., M.D., Dean of the Faculty of Medicine; Brown Chamberlin, M.A., B.C.L.; Walter Jones, M.D.; W. B. Lambe, B.C.L.; Sir William E. Logan, Kt., LL.D., F.R.S., F.G.S.; John Thorburn, M.A., principal of St. Francis College.

Secretary, Registrar, and Bursar.—William Craig Baynes, B.A.

The session of this University, under its amended charter, commences in the autumn. The classes in the Faculty of Arts will open on the 6th of September; those in the Law Faculty, on the 7th of October; those in the Medical Faculty, on the 4th of November; those in the High School Department, on the 1st of September; and those in the McGill Normal School, on the 1st of September.

The regulations of the University have been framed on the most liberal principles, with the view of affording to all classes of persons the greatest possible facilities for the attainment of mental culture and professional training. In its general character the University is Protestant, but not denominational; and while

all possible attention will be given to the character and conduct of students, no interference with their peculiar religious views will be sanctioned.

Faculty of Arts.—Rev. Canon Leach, LL.D., Dean of the Faculty, professor of Logic and Moral Philosophy, and Molson professor of English Literature; Rev. A. DeSola, LL.D., professor of Hebrew and Oriental Literature; John William Dawson, LL.D., F.G.S., professor of Natural History and Agriculture; Charles F. A. Markgraf, professor of German Language and Literature; Charles Smallwood, M.D., LL.D., professor of Meteorology; Mark J. Hamilton, C.E., professor of Road and Railway Engineering; Alexander Johnson, LL.D., professor of Mathematics and Natural Philosophy; Rev. George Cornish, B.A., professor of Classical Literature; Jonathan Barber, M.R.C.S.L., professor of Oratory; Pierre J. Darey, M.A., professor of French Language and Literature; T. Sterry Hunt, M.A., F.R.S., professor of Practical Chemistry.

Courses of Study.

For the Degree of B.A.—First Year.—Classics, English Literature, Mathematics, History, Elementary Chemistry. *Second Year.*—Classics, French or German, Logic, Mathematics, Botany, History. *Third Year.*—Classics, French or German, Rhetoric, Moral Philosophy, Mathematical and Experimental Physics, and Astronomy and Zoology. *Fourth Year.*—Classics, Mental Science, Natural Philosophy and Astronomy, Mineralogy and Geology.

Students may enter in the second year on passing a special examination, and students of other Universities may be admitted in any year by certificate and on examination.

Partial Courses.—Students not desirous of taking a regular course of study, may enter as partial or occasional students, and will be required merely to have a

sufficient amount of knowledge to profit by the lectures in the classes which they desire to attend.

Detailed information respecting courses of Lectures, Scholarships, Bursaries, Prizes, Honors, and Degrees, will be found in the Calendar, which may be obtained on application to the Principal, Dean of Faculty, or Secretary.

Faculty of Medicine.—George W. Campbell, M.A., M.D., Dean of the Faculty and Professor of Surgery; Archibald Hall, M.D., professor of Midwifery and Diseases of Women and Children; William Fraser, M.D., professor of the Institute of Medicine; William Sutherland, M.D., professor of Chemistry; William E. Scott, M.D., professor of Anatomy; William Wright, M.D., professor of Materia Medica and Pharmacy; Robert P. Howard, M.D., professor of the Theory and Practice of Medicine; D. C. McCallum, M.D., professor of Clinical Medicine and Medical Jurisprudence; Robert Craik, M.D., professor of Clinical Surgery; Horace Nelson, M.D., Demonstrator of Anatomy.

The regular course of study in this Faculty, leading to the degree of M.D., extends over four years, or in the case of those who have studied one year with a medical practitioner, three years.

The session extends from November 4th to May 1st, with a vacation of two weeks at Christmas. For further details see the Calendar and announcement of the Faculty, which may be obtained of the Dean of the Faculty or of the Secretary of the University.

Faculty of Law.—Hon. Wm. Badgley, D.C.L., professor of Public and Criminal Law; hon. J. J. C. Abbott, B.C.L., M.P.P., Dean of Faculty and professor of Commercial Law; Frederick W. Torrance, M.A., B.C.L., professor of Civil Law; P. R. Lafrenaye, B.C.L., professor of Jurisprudence and Legal Bibliography; R. G. Lafrenaye, B.C.L., professor of Customary Law and Law of Real Estate; Edward Carter, Q.C., associate professor of Criminal Law.

The regular course of study in this Faculty, leading to the degree of B.C.L., extends over three years; or in the case of students matriculating in the third year of their indentures, two years.

For details see the Calendar of the University.

High School Department.—Rector, Prof. H. Aspinwall Howe, M.A.; Classical and English Masters, T. A. Gibson, M.A., J. Kemp, John Johnson, B.A.; Mathematical Master, D. Rodger, M.A.; French Master, Prof. P. J. Darey, M.A.; German Master, Prof. C. F. A. Markgraf; Elocution Master, J. Andrew; Drawing Master, J. Duncan; Music Master, J. Follenius; Book-keeping, A. Grant; Instructor in Gymnastics, F. S. Barnjum.

The session commences on the 1st September, and terminates in the first week in July, when a public examination is held, and prizes and honours awarded to the deserving. The session is divided into four equal terms. At the end of each term, class examinations are held, and a full report of the progress and conduct of the pupil is sent to the parent.

The school is divided into six forms with a preparatory form. In the three higher forms pupils have the option of pursuing classical and mathematical studies preparatory to entering the University, or of devoting themselves to a commercial course.

McGill Normal School.—J. W. Dawson, LL.D., principal and associate professor of Natural History; William Henry Hicks, ordinary professor; Sampson Paul Robins, B.A., ordinary professor; P. J. Darey, M.A., associate professor of French; James Duncan, instructor in drawing; R. S. Fowler, instructor in music; J. Andrew, instructor in elocution.

Teachers of the Model Schools, James McGregor, and Mary McCracken.

This Institution is intended to give a thorough training to teachers, especially for the Protestant population of Lower Canada. This end is attained by instruction and training in the Normal School itself, and by practice in the Model Schools; and the arrangements are of such a character as to afford the greatest possible facilities to students from all parts of the Province.

UNIVERSITY OF BISHOP'S COLLEGE, LENNOXVILLE.

Incorporated by Royal Charter, 1853.—President of the corporation and visitor, right rev. the Lord Bishop of Montreal; vice president of the corporation and visitor, right rev. the Lord Bishop of Quebec; chancellor
